About

Jordan Scherer started his comedy radio program two years ago on the community-based radio station 93.3 CFMU. It was important for Mr. Scherer to broadcast on community radio because of his loyalty to the comedic art scene in Hamilton, and the ability to conduct a radio program in his complete creative-vision without the hassle of intrusive advertisements and corporate homogenization of his program. Every week Mr. Scherer conducts his radio show on Thursday at 1 pm. The show advertises local comedic performing artists and encompasses the themes of community that have been perpetuated through the cities budding arts scene. The show is a way to give back to the community all the support that they have given comedic performances in the city of Hamilton.

“Every single artist that I have met in Hamilton is unique. There are some seriously talented artists in this city of all calibers. There are musicians, visual artists, and performing artists crawling all over this city. My show is a chance to give back to the community all the support they have given me in developing my radio show and to artists across the city. I love this city and I just want to interact with the community and have them literally be a part of my show” –Jordan Scherer
